

# Venetian Hit and Miss Panel

# Jacksons Fencing

Just like our original Venetian panel, the frameless Venetian Hit and Miss panel retains a contemporary and sleek look that complements both modern and traditional gardens. Venetian Hit and Miss panels are part of our 'good-both-sides' range and feature horizontal slats on both sides of the panel with an over-lap which means air and light can still pass through, but visibility through the panel is largely obscured.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Designed for use with slotted Jakposts®.
- Panels are stacked to give extra height. (Eg. Two 0.907m panels on top of each other to create a 1.8m high panel).
- Offers more privacy than traditional Venetian fence panels.
- Capping Rail is recommended to finish installation (supplied separately).
- Gravel boards are required where panels are in contact with the ground.

## Specification

Panel Heights: 0.607m 0.907m

Panel Width: 1.83m

Pales: 45 x 16.5mm thickness (30mm space/gap between panels, larger than standard Venetian).

0.607m panels have 16 pales per panel.

0.907m panels have 24 pales per panel.

If you need to reduce the width of a panel on site, a cut down kit is available. Always use Jakcure® End Grain Treatment on any cut timber.

## Gates

Please speak to our sales team regarding matching gates, which will be made to order.

- Gate specifications will depend on the alternative style of gate chosen.

Standard Gate Heights: N/A

Standard Gate Widths: N/A

View our website for Q40 specification documents, CAD drawings and products available to buy online.

A fully made to measure service is available. All Jacksons Fencing systems and gates may be designed and manufactured to suit site conditions.

Note that components can temporarily swell up to 6% in width after our Jakcure® process temporarily affecting the overall product dimensions.
